200411		Suction Toothbrush Tip: Soft Bristles and sponge Sponge: green, 23x12x5mm Suction Tube: 195cm, with transparent thumb control valve	2000

Suction Toothbrush

Cat.No. 200409-200413

200412		**Oral Care Suction Toothbrush** Tip: Soft Bristles and sponge Sponge: green, 23x12x5mm Suction Tube: 180cm, with white thumb control valve	2000
200413		**Suction Toothbrush** Tip: Soft Bristles and sponge Sponge: 23x12x5mm Suction Tube: 170cm, with funnel connector	2000

Data

Appearance

Sponge and stick surface should be clear, Plastic stick with sponge should be strong.

Size

Sponge size 23×12×5mm, total 180mm (195) and all size could be customized.

Sponge Density

Sponge density around 30kg/m^3

Liquid absorbency

Liquid absorbency should be more than 100g/$100cm^3$

Combine strong rate

Sponge should be with good tension, without broken and tear under a force of 15N.

Deformation

Sponge extensibility should be more than 10N/cm and permanent deformation should be lower than 10%.

Packing

Packing material: Paper-Poly Pouch, plastic transparent, satisfy medical requirement, no fluorescent substance.

Dimension: Width 60±1mm, length 250±5mm, 2 layer thickness 0.2mm.

Storage

Keep product in dark place.

Temperature 5 to 35 ℃.

Relative humidity 10 to 50%.

Shelf life: 5 years
