Super Absorbent Dressing

Cat.No. 317301-317303, 317321-317323

Adhesive

Non-adhesive

Product Introduction:
Super Absorbent Dressing is an absorbent dressing that provides effective exudate control and gentle skin contact. Multi-layer instruction makes it ideal for the moderately to heavily exuding wound.

Construction:
Adhesive Type: adhesive silicone wound contact layer, hydro-penetrating layer, SAP polymer core, and protective outer layer
Non-adhesive Type: hydrophilic wound contact layer, SAP polymer core, and protective outer layer

Benefits:
Silicone wound contact layer does not adhere to the wound site.
Distribution layer with rapid fluid uptake distributes evenly upwards into the absorbent layer.
The central absorbent core contains SAP polymer, bringing about outstanding absorption and retention.
The fluid repellent backing layer minimizes fluid strike through, and its vapor permeable qualities improve breathability and exudate management property.

Indications:
Super absorbent dressing can be used for all stages of wounds, especially for kinds of medium and high exudative wounds.
- Plastic skin grafting after burn, skin donor site wound
- All kinds of wounds after surgery and trauma
- II-III degree burn and scald wounds
- Various types of ulcers and other refractory wounds.

Cautions:
1. Wash the wound with normal saline and gently dry the surrounding skin around the wound before use.
2. Choose a dressing 2 cm larger than the wound to cover the wound.
3. After absorbing the exudate, when the swelling part of the dressing is near the edge, please replace the dressing in time.
4. It can be used with other dressings. For example, the non-adhesive super absorbent dressing can be combined with a self-adhesive bandage.

Super Absorbent Dressing

Cat.No. 317301-317303, 317321-317323

Instructions For Use:
1. According to the wound condition, choose the appropriate size of the absorbent pads.
2. Tear open the small package and take out the absorbent pads.
3. Gently apply the dressing on the wound and fix it with a bandage or dressing

Use Guide:

Shelf Life: 3-year shelf life

Specifications:

Cat. No.	Dressing Size	Quantity/Case (pcs)
317301	Adherent Super Absorbent Dressing, 4"x4"(10cmx10cm)	100
317302	Adherent Super Absorbent Dressing, 4"x8"(10cmx20cm)	100
317303	Adherent Super Absorbent Dressing, 6"x10"(15cmx25cm)	100
317321	Non-adhesive Super Absorbent Dressing, 4"x4"(10cmx10cm)	100
317322	Non-adhesive Super Absorbent Dressing, 4"x8"(10cmx20cm)	100
317323	Non-adhesive Super Absorbent Dressing, 6"x10"(15cmx25cm)	100
